

Leone's Red Faces Article - post Grapevine publication – Dec 2017

A few comments of mine regarding our latest Talent Show, and talent it certainly was. This was our biggest yet, and I truly believe we get better each year – we had the usual mishaps/mistakes/fumbles etc. and that's why we call ourselves Red Faces. Aren't we lucky that we can get away with it!

Once again everyone came up to the plate and did their thing – lots of imagination, rehearsals – lots of time spent, and lots of laughs – it was great and I loved it – I think everybody did. There were many highlights – we all had our favourites so I won't point them out – you know who you are and who they are.

Some I MUST give special mention to:

Our Host and Master of Ceremonies – John Bardill. What a performance. You really take the prize John – that was Soooooooooo good. One wonders who you will be next year – I am guessing but not saying. Big Thankyou.

Our Cinema Photographer – John Whaite. You really are becoming very professional John and the results are amazing. You devote so much time and effort into getting it just right and we love what you do. And thankyou for providing video recordings for us all.

Assistant Cinema Photographer – Martin. Thankyou Martin – you and John made a great team to produce such a lovely record of our event.

Sound Engineer – Peter. Thankyou Peter – a perfect job – also very professional – you looked good too and very much at home.

Stage Managers – Jenny and John B. Thankyou both for all the work that you do, up front and behind the scenes – you make everything run so smoothly with all your efforts and time and energy. It would not work without you.

Thankyou Everyone – Actors, singers, dancers, musicians, performers of all kinds, and helpers - for once again making Red Faces the Best Live Show in Town.

Love to you All from Leone
